

Rotaract Club of VSPM Physios

Talk at a Walk

28th October, 2018

“An informed citizenry is at the heart of a dynamic democracy.”- Thomas Jefferson

After it's installation on the 23rd of October, Rotaract Club of VSPM Physios planned an event on 28th October, 2018, which happened to be on a Sunday. This was the first event planned by the Board Members. Even though planned on a short notice, the team managed to get an appreciative participation of 35 students across all the years of undergraduate section.

The students, as per the circular sent across by the board, reported at 7:30 in the morning, at the Japanese Garden, Seminary Hills, Nagpur. The students happily joined in with great enthusiasm. After everybody introduced each other, the President gave them a brief of the day's event.

The event began by walking up the hill, and stopping after every 100 meters. To break the ice and initiate conversation, a circle was formed and chits with some interesting topics were picked up. Everybody got the opportunity to speak about themselves and their little stories. This also helped in understanding the expectations the students and planning out future events.

A completion of one round of the hill brought us to the end of the event which was around 9:30a.m. A quick introduction to the newly formed Club and it's membership was given to the students, who showed great excitement and involved, which truly boosted the spirits of the board members.

Attendance was marked for board members and students. To sum it up on a lighter note, a group picture of the new Rotaract Club of VSPM Physios marked the beginning of a new session ahead, with lots of hopes, dreams and an aim to reach new heights.

-Rtr. Anuradha Punyani, President

Rtr. Priyesh Ramteke, Joint Secretary
